CH - 2003 NEUCHATEL / SWITZERLAND  
INTER - OFFICE CORRESPONDENCE

To: Strictly confidential  
See Distribution Date: April 3, 1989

From: J. B. Boder Doc name:

Subject: Comments on the minutes of the last meeting with BAT -  
Zurich, March 31, 1989.

Distribution:

G. Bible, B. Brooks, L. Pollack, A. Whist, W. Thoma,  
L. Camilleri, G. Diserens, A. Buzzi, S. Darrah

Copies:

M. C. Bourlas

Pt. 2 Swiss Legal Case

Nothing was changed concerning already agreed items, i.e.

- BAT must undertake the negotiations with the other three companies.
- An agreement must be reached by all plaintiffs

C. Borloz (head of BAT Switzerland) will contact G. Diserens to discuss how best to approach Burrus. B. Brooks will be contacted by N. Cannar if necessary.

Pt. 3 Human Smoking Studies - Saudi Arabia

It is important for us, through our contacts at SASO, to check if BAT has cancelled the test.

Pt. 4 Product Designation

This paragraph concerns Barclay only

Pt. 5 Washington Meeting

Reference is made to the next CORESTA Task Force meeting, scheduled for April 12-13. As BAT and PM have been asked by CORESTA to develop a new method for testing CVC's, it is important that both companies coordinate their efforts in order to meet the deadline.

Pt. 6 Timetable

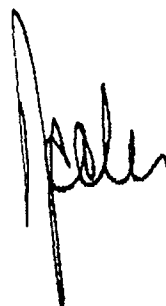

This refers to the timetable for the implementation of the new method. It is recommended that one person from PM be appointed to coordinate the efforts from our side.

Pt. 10 Proposed Draft Agreement

This is a revised version of a document proposed by B&W. It is not requested that this document be signed by executives of the two companies but should there be a wish to do so, it could be a base for a definitive document.

A handwritten signature, possibly reading "Paley", is written in dark ink. The signature is stylized with a large initial 'P' and a long, sweeping horizontal stroke.
